ABOUT US

WHO WE ARE

We are A group of *thinking minds* looking for other similar people to grow together and amplify projects, skills and results: everyone can/must propose business projects, to be submitted to others, of which he will be the referent.

We are open to any type of project that ethically and morally creates benefit for the community.

We are for sustainable projects and tend to be for those projects that can be managed directly without relying on the uncertainty of others' management.

We are for the equal sharing of responsibilities, each to the extent of its own competence.

We are for the creation of a real work team in which everyone has to give their operational contribution and we do not like passive people.

OUR VISION

We want to shape our destiny by achieving economic independence...

We are determined to achieve it by diversifying into the various traditional and non-traditional economic spheres...

We believe in the value of time and in the duty to fully enjoy it...

We want to develop projects that go against the trend with the "money x time" ($\text{€} / \text{t}$) equation...

OUR MISSION

- We want to create together an increasingly numerous, but still selected, Community of people capable and eager to achieve the common goals outlined so far.
- We want to develop the concept of economic-financial and sustainable growth by learning and teaching members to create wealth with their own hands and especially with their Mind.

ROAD MAP

Δ.Δ.

The Holding we have created will be the leader of other companies that will deal with:

- Opening of physical stores (10 in Bulgaria and 10 in Portugal ...)
- Service company for companies (smart contracts, blockchain, CRM platforms)
- Mining farm evergreen
- Travel
- Tecnology
- Training
- ...other projects

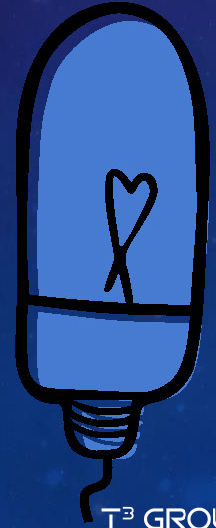

The capital generated by the sum of the Started activities will be employed as follows:

- 20% liquid company reserve
- 25% investment in new projects
- 30% commissions to the network
- 10% merchandising
- 15% Δ.Δ. management

The shareholders are included in the company structure (not Founders). They give life to the spa, with an operational role.

ROAD MAP

2021

Idea was born

May 2021:
Ideas are created and combined that will give life to the entire Project.

2023*

Running-in and growth

Until the end of 2023:
The phase of rooting and substantial growth of current projects; Consequently, other projects develop, as in a living organism in the making.

2025

Leader

By the end of 2025:
We will be leaders, as well as pioneers, of this new business system with multiple tasks.

2022

Start

March 2022:
Once all the ideas have been aligned, the Holding is created which initially takes care of all the projects.
By December 31, 2022: TripleT Token

2024**

Stability

From the beginning of 2024:
This is the stabilization phase in which all existing projects will be 100% operational and productive.
